Socket to Me!

Computer Science and
Engineering Camp for Girls

June 7-12, 2009

SOUTH DAKOTA

SCHOOL OF MINES
& TECHNOLOGY

<http://sdmines.sdsmt.edu/learn/youth>

WHO SHOULD ATTEND

Girls interested in learning more about how computers work, computer programming, or careers in computer science and engineering. This camp is for girls who will be in grades 7-10.

IS IT REALLY CAMP?

Yes! You will stay on the School of Mines campus in the residence halls. You will have a roommate, eat in the cafeteria, work in the computer labs, and go on field trips to see computers in action at local industries. Camp will start with a pizza party Sunday night and end Friday with a programming competition.

WHAT YOU WILL LEARN

This camp provides a hands-on computer science and engineering experience in a fun camp format.

- The importance of becoming computer literate
- Computer basics
- How to disassemble and reassemble a computer
- PC maintenance
- Basic programming
- Web programming
- Basic electronics

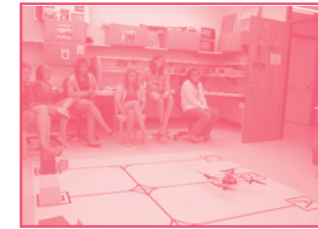

BENEFITS

- Learn about computer careers and if you would like this line of work
- Learn what classes to take to help you with your career goals
- Troubleshooting and problem solving your own PC
- Hear from computer experts about their careers
- Learn about area industry and how computers help every day
- Work with industry role models and current School of Mines computer science and engineering students

WHAT PARENTS AND TEACHERS SHOULD KNOW

Students need experiences to help them make critical decisions about what classes to take in high school that prepare them for science-based careers. The camps feature an atmosphere of discovery and guidance with same-sex students and professional role models. The camp will enhance their exposure to possible future professions.
